

UNIVERSITAS HASANUDDIN U P D A T E

FOUR STUDY PROGRAMS ACHIEVED ASIIN ACCREDITATION, GERMANY

Universitas Hasanuddin establishes its existence as an international standard university, indicated by the increasing number of internationally accredited study programs.

Latest news, Unhas again received the results of accreditation from a very credible and prestigious institution called Akkreditierungsagentur für Studiengänge der Ingenieurwissenschaften, der Informatik, der Naturwissenschaften und der Mathematik or ASIIN, which is a European Accreditation Institution based in Germany for Engineering, Informatics / Computer, Natural Sciences, and Mathematics.

The accreditation was given to the following 4 study programs at Unhas:

- Study Program of Pharmacy
- Study Program of Nursing
- Study Program of Aquaculture
- Study Program of Food Science and Technology

Previously, the four study programs had been visited by Assessors of ASIIN in February 2019.

The ASIIN Assessors were:

1. Prof. Dr. Gert Fricker (Heidelberg University),
2. Prof. Dr. Phillipp Eschenbeck (University of Applied Sciences Bochum),
3. Prof. Steve Strupeit (University of Education Schwabisch Gmund),
4. Prof. Dr. Harry Palm (University Rostock),
5. Prof. Dr. Siegfried (University of Applied Science Neubrandenburg),

... *CONT'D*

6. Dr. Frank Peter Ritter (Bayer AG),
7. Prof Dr. Ing Oliver Schluter (Leibniz-Institut für Agrartechnik und Bioökonomie),
8. Dr. Christin Habermann (Representatives of ASIIN Secretariat),
9. Mr. Arnold Rainer (Representatives of ASIIN Secretariat).

Director of Communication of Unhas, Suharman Hamzah, Ph.D. mentioned that the achievement is a crucial step for Unhas. ASIIN is known to have very strict criteria and standards.

“It is not easy to get quality recognition from ASIIN. After sending the accreditation document, the assessors came to visit. After that, the assessors send notes of improvements that must be made by the study programs. So this requires

intensive work from the ASIIN task forces in each study program.” said Suharman.

Each ASIIN task forces in the study programs have shown commitment and sincerity in completing the ASIIN criteria. Therefore, the result is quite satisfied.

“Especially for Nursing Study Program, this accreditation also includes recognition of the nurse profession program. We congratulate faculty leaders and study programs for this achievement,” said Suharman.

With this accomplishment, 23 study programs at Unhas have successfully met various criteria and standards of international accreditation. Three institutions that provide recognition for these study programs are AUN-QA, ABEST-2I, and ASIIN.

“All 15 faculties at Unhas at least have 1 internationally accredited study program for each. This implies that quality of learning in Unhas works equal and balanced” said Suharman.

RECTOR OF UNHAS RELEASES STUDENTS OF INTERNATIONAL CLASSES TO EUROPE, AUSTRALIA, & CANADA

The Rector of Unhas, Prof. Dr. Dwia Pulubuhu, MA, officially dispatched 25 students of international classes from Faculty of Public Health (FKM) and Faculty Economy & Business (FEB). The students will join the lecturing process at partner universities of Unhas in Europe, Australia, & Canada for 1 to 3 months.

On Friday, June 21, 2019, the event was attended by the Director of Education of Unhas (Dr. Ida Leida Maria, SKM., M.KM), Dean of the Faculty of Economy and Business (Prof. Dr. Abd. Rahman Kadir, M.Si CIPM), Vice-Dean II of the Faculty of Public Health (Dr. Atjo Wahyu, SKM., M.Kes), Head of the International Affairs Office (Karmila Mokoginta, MA, M.Hum), and Head of Academic Administration Bureau (Ernawati Rivai, MM).

Prof. Dr. Abdul Rahman Laba, MBA as Chair of the FEB International Class Manager, and M. Sabranjamil Alhaqqi, MIntBus along with the FEB International class management team as well as students and parents of students were also present at the event.

The destination universities are international partners of Unhas International Class Program, including University of Griffith (Australia), Leibniz Universität Hannover (Germany), Goethe Universität Frankfurt Am Main (Germany), Utrecht University in (Netherlands), and Humber College (Canada).

The Rector of Unhas warmly welcomed the students who are actually the first badge of the program. She emphasized the importance of taking advantage of overseas study opportunities for all international class students.

“This is an excellent opportunity to build networks & collaboration among academics, to enhance quality & competitiveness in a global context, & to become ambassadors for Indonesia and UNHAS in International Community.” said Prof Dwia.

Before releasing the students, Unhas also conducted a pre-departure briefing for the students before the departure. This pre-departure briefing aimed to mitigate the culture shock that might happen to the students while studying at the partner universities.

Director of Education of Unhas, Dr. Ida Leida Maria, explained that the international exposure programs attended by students are in the form of Credit Transfer program with a duration of one semester, Double Degree Program (1-1.5 years in length) and Sit-In and Summer School program which lasts 1-2 months in the country of study destination.

This is the excellence that we offer in the International Class Program of Unhas. “Students have international experience since they are in university, therefore they will open up their mind for the global insights,” said Ida Leida.

In this 2019, again Unhas offers the opportunity for the High School students to be part of the International Class program. There are 10 study programs offered by far. Besides lecturing process delivered in English, the International class program also offers education systems in the form of Single and Double Degree conducted by international partner universities. The Double Degree System provides an opportunity for students to obtain 2 undergraduate degrees at the same time when completing the undergraduate level.

COLLABORATION BETWEEN FACULTY OF DENTISTRY & UNIVERSITY RESEARCH IN TAIWAN

The effort of Faculty of Dentistry of Universitas Hasanuddin to build an international network is now improved with the signing of a collaboration with the College of Dentistry, China Medical University (CMU), Taichung, Taiwan (by Dean, Lih-Jyh Fuh, DDS., Ph.D) and conducting an extension of the MoU with the College of Oral Medicine, Taipei Medical University (TMU), Taipei, Taiwan.

This effort continued to be improved after achieving recognition from the Asian University Network-Quality Assurance (AUN-QA). The Faculty of Dentistry of Unhas continues to improve as a World Class Faculty by continuously enhancing collaboration with the best universities in Asia as an effort to realize the missions and goals of Unhas Rector, Prof. Dr. Aries Tina Pulubuhu, MA. and to make Unhas achieve a title of World Class University.

June 22nd - 23rd, 2019, the Dean of Faculty of Dentistry, drg. Muhammad Ruslin, M.Kes., Ph.D., Sp.BM (K) attended the invitation of the Taiwan Blood Biomaterials Society (TSBB) as an Invited Speaker at the International Symposium of Taiwan Society of

Blood Biomaterials under the theme "Translational Medicine; From Innovative Research to Clinical Application in Taipei, Taiwan."

In this event, some figures also participated as academicians such as the previous dean of Faculty of Dentistry, Prof. drg. Mansjur Nasir, Ph.D. (Member of the Board of Trustees of the previous period) and Prof. Dr. drg. Bahrudin Thalib, M.Kes., Sp.Prof. (K) (Member of the current Unhas Board of Trustees).

The Head of Department of Pediatric Dentistry FKG Unhas Prof. Dr. drg. Sherly Horax, MS, and the Head of Quality Assurance Group of FKG Unhas, Prof. Dr. drg. Asmawati Amin, M.Kes., And Director of Unhas Teeth and Mouth Hospital, drg. Andi Tajrin, M.Kes., Sp.BM (K) also participated in the event.

This event was also attended by students of Faculty of Dentistry, Maya Masyta, SKG (professional students) and their group following the Scientific presentation held by the TSBB after passing the selection on the faculty level.

“The implementation of the collaboration with TMU at this time is that a staff of Faculty of Dentistry FKG Unhas staff is listed as a Ph.D. student and another person has been listed as a Master student at TMU, as well as there has been some research collaborations by far and will continue to be improved with the additional collaboration with CMU,” said Ruslin.

“To continue the implementation of the Collaboration with TMU, next year we will send 2

more staff for master degree and 2 staff for Ph.D. degree,” said the Dean of FKG Unhas.

“Prof. Keng Liang Ou, Ph.D (h-index 32) (Former Dean of College Oral Medicine, Taipei Medical University) who is currently listed as an Adjunct Professor in Faculty of Dentistry of Unhas stated his readiness to attend the event “The 2nd International Conference on Biophysical Technology in Dentistry (ICoBTD 2019)” as the main speakers on August 24th -25th in Makassar.(*)

UNIVERSITI KEBANGSAAN MALAYSIA DISCUSSED ABOUT CONFERENCE IN UNHAS FISIP

Discussing the follow-up collaboration in the field of international conferences, Universiti Kebangsaan Malaysia (UKM) visited FISIP Unhas, (6/25).

During the visit, the UKM focused on the cooperation conference which will be held on the next 30-31 October at the Faculty of Social Sciences and Politics with the theme GLOBAL SOCIETY AND THE RISE OF LOCALITY OF 4.0 ERA. The visiting parties were Prof. Dr. Kadaruddin Aiyub and Associate Professor Dr. Hair Awang from the Faculty of Social Sciences and Humanities (FSSK) “I hope that in the conference there will not only be a spread of paper, but there will be a session where the UKM and Unhas will share ideas about the same

theme so that later it will expand and give birth to new papers,” said Prof. Kadaruddin.

The sub-themes that are planned to be appointed are Community Development, Public Policy and Governance, Sustainable Development, International Relations, Culture, Heritage & Identity, and Communication.

UNHAS AND EHIME UNIVERSITY JAPAN JOINT RESEARCH IN PALU - SIGI

Team of Center for Disaster Study and Research of Universitas Hasanuddin conducted research together with the Team of Disaster Study of Ehime University of Japan in Sibalaya, Palu, Central Sulawesi. The Research Teams have been in the field since Sunday, June 24th, 2019, and they will stay there for 14 days.

The advanced research was focused on the excavation of certain locations to examine the liquefaction phenomenon that occurred in Palu and surrounding area on September 28th, 2018 ago. The earthquake and liquefaction disaster have shocked the international community, especially the geological researchers or geologists. The objective of this research is to find out the mechanism that caused the liquefaction during the natural disaster.

Sibalaya was chosen because of its location which is ideal for digging and excavating until the liquefaction source can be discovered. When the earthquake and liquefaction hit Central Sulawesi, Sibalaya area experienced the liquefaction and shifted approximately 500 meters from its original area.

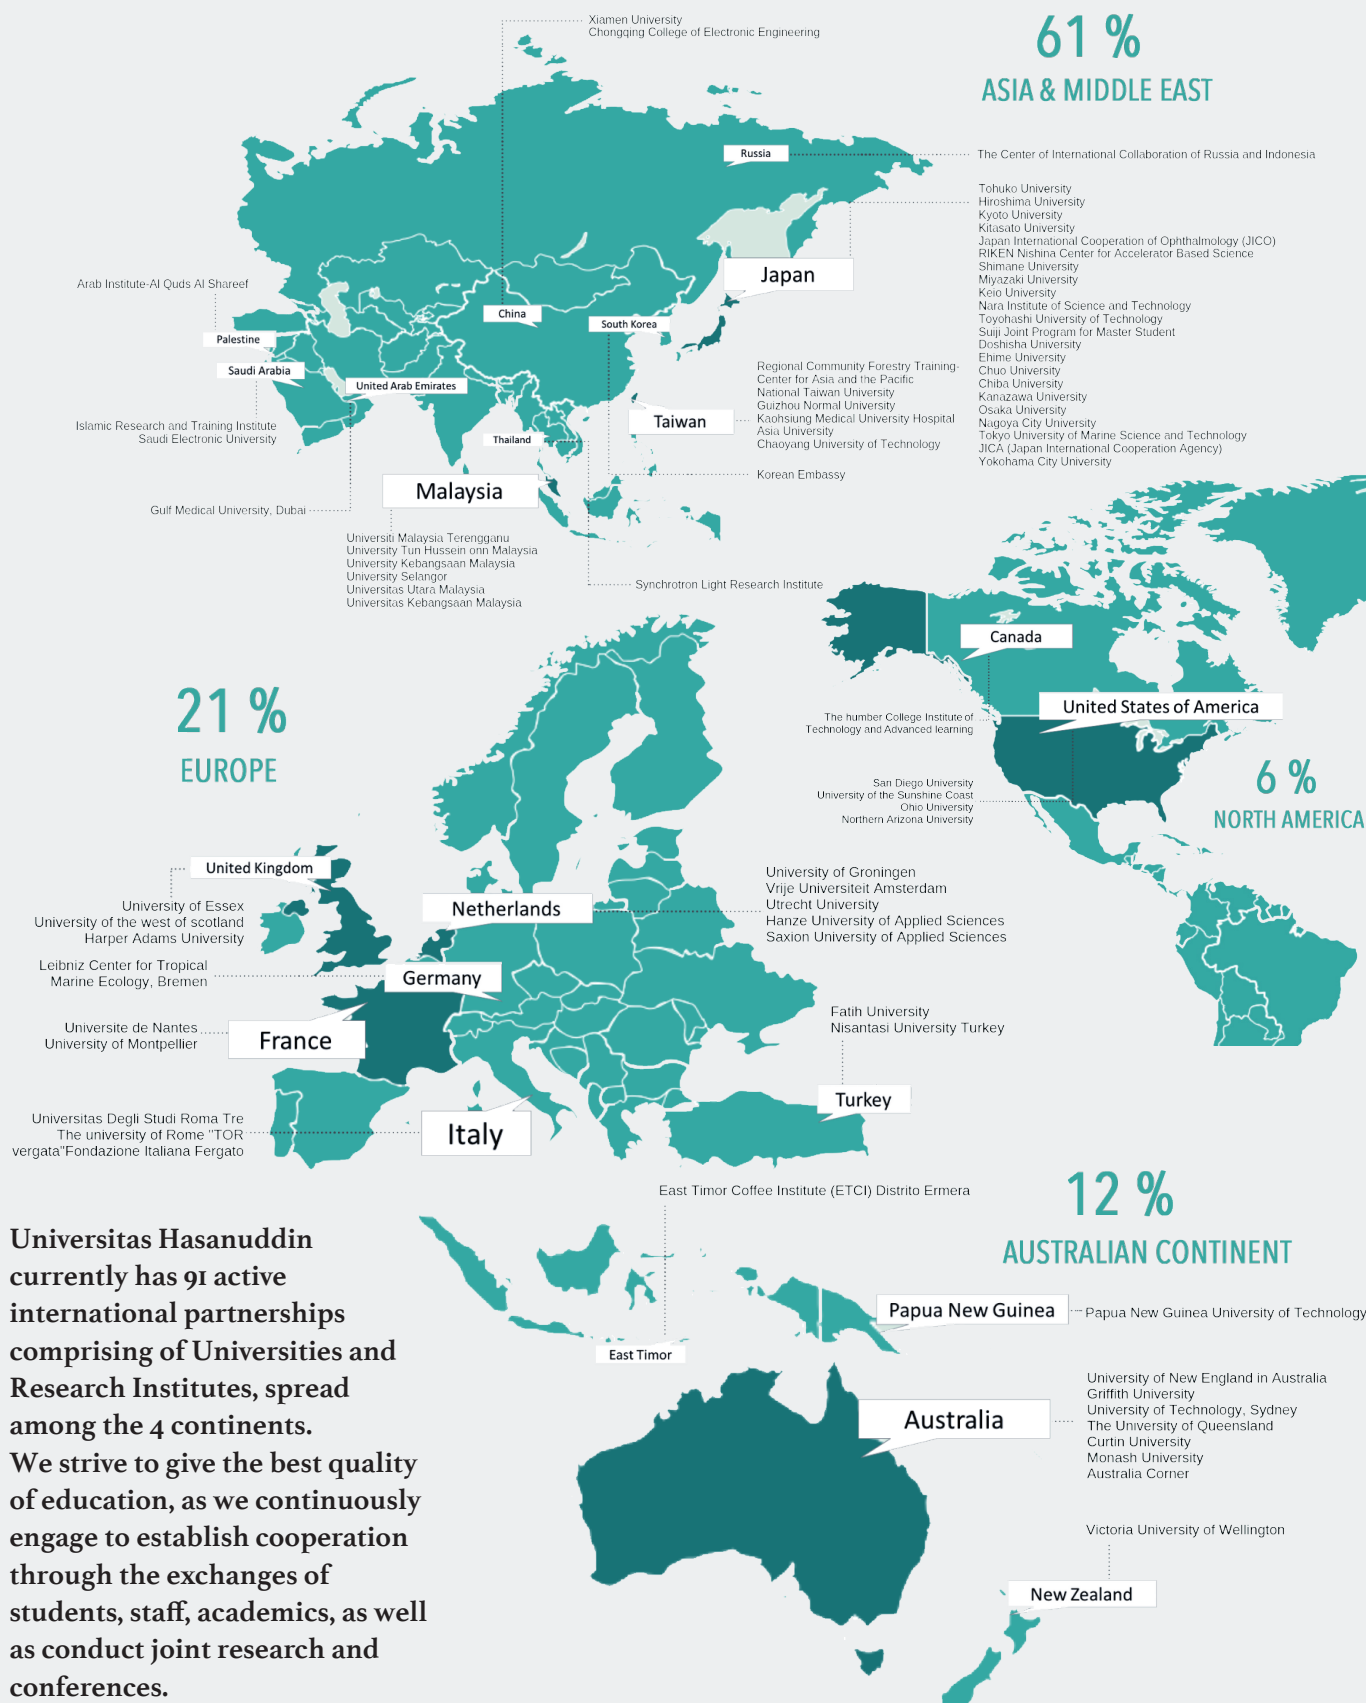

Head of the Center for Disaster Study and Research at Unhas, Dr. Adi Maulana, said that this research collaboration was based on the MoU between Unhas and Ehime University. The Teams conducted

excavation at several places using heavy equipment to make 5-7 meters deep and 3-4 meters wide of excavation pits.

“It is expected that in this study, the teams can reveal the liquefaction mechanism and learn it, then make it as a disaster mitigation references in the future. This research will also be crucial to be used as a reference in reviewing spatial planning in earthquake-prone areas in other places so that casualties and property damage can be minimized,” said Adi Maulana.

He hopes that the results of this study will be useful not only for the development of science but also for future mitigation needs of disaster so that casualties and property damage can be minimized. (*)

ACTIVE PARTNERSHIP as of April 2019

Universitas Hasanuddin currently has 91 active international partnerships comprising of Universities and Research Institutes, spread among the 4 continents. We strive to give the best quality of education, as we continuously engage to establish cooperation through the exchanges of students, staff, academics, as well as conduct joint research and conferences.

FACULTY & STUDY PROGRAM

Universitas Hasanuddin consists of 15 Faculties covering wide varieties of majors in natural sciences, social sciences, engineering and many others.

- Faculty of Agriculture
- Faculty of Social & Political Sciences
- Faculty of Cultural Sciences
- Faculty of Mathematics & Natural Sciences
- Faculty of Economics & Business
- Faculty of Medicine
- Faculty of Law
- Faculty of Pharmacy
- Faculty of Dentistry
- Faculty of Forestry
- Faculty of Engineering
- Faculty of Animal Husbandry
- Faculty of Marine Sciences & Fisheries
- Faculty of Public Health
- Faculty of Nursing

Postgraduate Program at Unhas offers doctoral & master programs in wide range of majors including Health Sciences, Natural Science, Engineering and many others. Faculty of Postgraduate consists of 50 master study programs and 17 doctoral programs. The following lists are the master study program available at Unhas:

- Agricultural system
- Regional Planning and Development
- Environment management
- Resources economics
- Linguistics

- Economics Dev & Planning
- Dev. Administration
- Legal Science
- Agribusiness
- Chemistry
- Indonesian Language
- Urban Management
- Communication
- Bio Medic Science
- Sociology
- Financial Management
- Public Health
- Anthropology
- Gender and Development
- Master of Management
- Mechanical Engineering
- Civil Engineering
- Medical Specialist
- Pharmacy
- Master of Regional Finance
- Electrical Engineering
- Infrastructure Planning
- Transportation
- Agrotechnology
- Rural Planning & Dev.
- Agroindustry
- Geophysics
- Geology
- Marine Science
- Architecture
- Fisheries Science
- Accounting
- Mathematics

- Notary Affairs
- Forestry Science
- Food Science & Tech
- Agricultural Engineering
- Livestock Tech. & Science
- Plant PEST & Disease
- Nursing Science
- Political Science
- Midwifery
- Physics
- Biology
- English Language

The following lists are the doctorals available at Unhas :

- Agricultural Science
- Medical Science
- Linguistics
- Legal Science
- Economics
- Chemistry
- Civil Engineering
- Public Administration
- Public Health
- Anthropology
- Fisheries Science
- Architecture
- Mechanical Engineering
- Environmental & Geology
- Electrical Engineering
- Communication Science
- Pharmacy
