

NEWS UPDATE Volume 47 - April 2022

## INTERNATIONAL STUDENTS OF UNHAS CELEBRATE MAKASSAR CULTURAL DAY

Language Center of UNHAS established a cultural event for international students of 2021/2022 Academic Year. The event is part of the celebration of Makassar Cultural Day on Friday (01/04). The international students were invited to tour the Unhas campus while wearing traditional dresses of South Sulawesi and accompanied by traditional drum sound.

Dra. Herawaty, M.Hum., Ph.D., the head of Language Center explained that this event aims to introduce our culture for the international students and supports the

process of learning Indonesian language and culture. On the same occasion, Tsukiko Myojo from Japan gratefully expressed her happiness about the Makassar Cultural Day.

This activity was also lived up by the presentation of traditional dance and music performances.

## FACULTY OF DENTISTRY OF UNHAS HOSTED A GUEST LECTURE PRESENTING EXPERT WITNESS IN FORENSICS FROM AUSTRALIA

### Obligations of a Forensic Expert: The good, the bad and the ugly.

**DR Meiya Sutisno** BSc(Hons) PhD(Med) USYD  
forensic anatomist | expert witness | consultant  
Sydney, Australia

D R M e i y a S U T I S N O

The Faculty of Dentistry of Universitas Hasanuddin (FKG Unhas) held a Visiting Lecture program on the topic "Forensic Expert Obligation: The Good, The Bad and The Ugly". FKG Unhas invited an Expert Witness in Forensics, Dr. Meiya Sutisno, BSc. (Hons), Ph.D. (Med) from Sydney, Australia.

The activity was carried out virtually using the Zoom meeting application starting at 09.00 on Monday (11/4). The activity was officially opened by the Dean, drg. Muh. Ruslin, M.Kes., Ph.D., Sp.BM(K).

In his speech, Prof. Ruslin expressed his gratitude and appreciation for the presence of expert resource persons who shared information, knowledge, and experience in their field.

Starting the activity, Peter Sahelangi, drg., Sp.OF (K), DFM Senior Supt (Ret), (Sub-Department of Forensics and Medicine, Faculty of Medicine & Dentistry, Universitas Hasanuddin) gave an explanation regarding facial reconstruction procedures and Superimposition Identification with the method identification which is an investigative tool to generate potential identities for victims of mass disasters.

In each case, it requires routine methods of primary identification such as fingerprinting, DNA analysis, and comparison of dental records.

"The Indonesian National Police has formed a Disaster Victim Investigation (DVI) team that uses Craniofacial

reconstruction and superimposition to investigate and identify living and dead victims. Like in several suicide bombing cases in Indonesia," explained Peter.

In identifying victims, it is very necessary to have good coordination between the DVI team and the investigative officers, starting from the scene of the incident. The main needs of the DVI Indonesia team are doctors and dentists trained in the Interpol DVI SOP.

Dr. Meiya Sutisno, BSc. (Hons), Ph.D. (Med), further explained the evidence of the Ancient Egyptian mummification process related to changes in body position by identifying through morphological analysis in forensic investigations. Identification is carried out on the face in detail from the shape of the facial skeleton to the shape of the ears.

Furthermore, Dr. Meiya Sutisno, also explained the role of expert witnesses in each trial testimony procedure. "The job of an expert witness is to provide evidence that is relevant and impartial in his area of expertise while remaining free from bias or conflict of interest," Meiya said.

After the presentation of the presenters, it was followed by a discussion and question and answer session which was attended by around 300 participants, including those from the Faculty of Dentistry, Unhas.

## FACULTY OF NURSING ACCEPTS TWO INBOUND STUDENTS FROM HANZE UNIVERSITY OF APPLIED SCIENCES

Dean of the Faculty of Nursing, Universitas Hasanuddin (Unhas), Dr. Ariyanti Saleh, S.Kp., M.Sc., welcomed two inbound students from Hanze University of Applied Sciences, Groningen, the Netherlands which took place in the senate room of the Faculty of Nursing, Unhas at 14.00 WITA, Thursday (14/04).

Related parties were also present at the welcoming ceremony; including the Vice Dean for Academic Affairs, Research and Innovation (Syahrul Said, S.Kep., Ns., M.Kes., Ph.D.), the Vice Dean for Planning, Finance and Resources (Dr. Erfina, S. Kep., Ns., M.Kep.), the Vice Dean for Student Affairs, Alumni, and Partnerships (Dr. Takdir Tahir, S.Kep., Ns., M.Kes.), and Head of the Nursing Profession Study Program (Dr. Rosyidah Arafat, S.Kep., Ns., M.Kep., Sp.KMB).

The Adhoc Team for International Class Non-Degree Students in collaboration with Hanze University of Applied Sciences, Groningen, Netherland attended the event as well.

The two inbound students are Bram Muller and Minke Marchien Ploeger. They will officially start the nursing profession non-degree program which is scheduled to last for three months.

This Non-Degree Program is a collaboration between the Faculty of Nursing, Universitas

Hasanuddin, and Hanze University of Applied Sciences, Groningen, Netherland.

Dr. Ariyanti Saleh, the Dean of the Faculty of Nursing, in her speech, introduced the faculty facilities and learning programs to the two inbound students. She hopes that they can attain experience and competencies during the implementation process of the nursing practice.

“We deeply hope that this professional nursing practice program can be run well and result in expected outcomes. Before starting the program, they will follow the Introductory Culture and Language Program,” explained Dr. Ariyanti.

Furthermore, Dr. Ariyanti said that while participating in the program, the two students will receive guidance and assistance from the lecturer team of the Nursing Faculty, Unhas.

After the remarks, the event was followed by an introduction session from the Inbound Students, vice deans, the head of the Nursing Study program, and the Adhoc team.

## UNIVERSITAS HASANUDDIN HOLDS WEBINAR SERIES DISCUSSING HUMANITIES STUDIES WITH AN EXPERT FROM AUSTRALIA

Universitas Hasanuddin through the Faculty of Cultural Sciences (FIB) held a webinar entitled “Top Scientist Webinar Series” which is part of the World Class University program.

The event which presented a resource person, Prof. Charles Campbell Macknight from The Australian National University delivered a topic “The Uses of the Humanities With Some Reference to South Sulawesi” was conducted at 9.00 WITA online through the zoom meeting application, Thursday (07/04).

The Vice-Rector for Research, Innovation, and Partnership, Prof. dr. Moh. Nasrum Massi, Ph.D., Sp.MK was present to officially open the webinar.

On the same occasion, he took the chance to explain that this webinar is not only a forum for developing information but also for establishing collaboration between universities. It is strongly believed that multidisciplinary application will broaden any potential or research results.

Prof. Nasrum further added that the theme chosen to be discussed in this webinar is very fascinating. Studying humanities could lead us to the ways how to think, reason, and raise questions in critical and creative ways.

Besides, research on human experience will also help us gain more understanding of the universe. The works produced by the scholars in humanities can provide us a greater expansion of values from different cultures such as how to make arts or history of a particular civilization.

Today’s webinar is part of the World Class University program issued by the Ministry of Education, Culture, Research, and Technology.

This program opens up more opportunities for Unhas to hold more international collaborations in the scope of science. Thus, in the near future, we hope this program can be proceeded by conducting collaboration with the Australia National University in various fields.

After the official opening, the event was continued with a material presentation from the resource person, Prof. Charles discussing the importance of the humanities, with several references from South Sulawesi. He also provided an overview of the study of humanities and the research values that can be utilized.

The presentation was proceeded by the question and answer session moderated by Dra. Nasmilah, M. Hum., Ph.D (Lecturer of FIB Unhas).

The event attended by roughly 100 participants run well at 11.00 WITA.

# MANDARIN STUDENTS OF UNIVERSITAS HASANUDDIN WON INTERNATIONAL AWARDS, SET ASIDE 950 PARTICIPANTS FROM 45 COUNTRIES

Tuti Wulandari, Student of the Mandarin and Chinese Culture Studies Program, Faculty of Cultural Sciences (FIB) Hasanuddin University won the Youth Cultural Ambassador category in the International United Nations Chinese Language Day and The Second CMG Overseas Chinese Language event organized by the United Nations (UN) cooperation with the Government of the People's Republic of China.

This international festival was attended by approximately 950 participants from 45 countries. The event, which was launched on February 26, 2022, selects 14 of the best works from 950 works to get awards.

Tuti Wulandari managed to become one of the 6 selected Youth Culture Ambassadors.

After being selected as a Youth Culture Ambassador, Tuti Wulandari will then participate in activities through scholarships provided by Tsinghua University, China and have the opportunity to take part in a special program recording at CMG Europe.

During the festival, Tuti made a video with the topic "The Ambassador of Cultural Exchange Between China and Indonesia - Zheng He".

This video tells the life of Zheng He, a Chinese figure who was born and raised in a Chinese Muslim family. He later became a driver of change in Indonesia, and Southeast Asia.

"It's unbelievable that I can win this big competition. I got a lot of experience and understanding from this activity according to my field of knowledge, namely Mandarin and Chinese Culture," said Tuti.

This achievement is expected to be able to provide enthusiasm and encouragement to other students to continue to contribute to the name Unhas and Indonesia in the international arena.

The preparation and success achieved by Tuti cannot be separated from the guidance of the Mandarin Language and Chinese Culture Study Program lecturer at FIB Unhas as well as a native speaker from the Confucius Institute.

## FIVE STUDY PROGRAMS OF THE FACULTY OF ENGINEERING RECEIVE ASIIN INTERNATIONAL ACCREDITATION

Five Study Programs at the Faculty of Engineering, Universitas Hasanuddin have once again received international accreditation from ASIIN (Akkreditierungsagentur für Studiengänge der Ingenieurwissenschaften, der Informatik, der Naturwissenschaften und der Mathematik).

The announcement was directly issued by the ASIIN Secretariat in Germany on Thursday (07/04).

The aforementioned study programs are all undergraduate study programs (S1) as listed below:

- S1 Informatics Engineering Study Program,
- S1 Urban and Regional Planning Study Program,
- S1 Marine Engineering Study Program,
- S1 Mining Engineering Study Program, and
- S1 Industrial Engineering Study Program.

Dr. Ir. Prastawa Budi, M.Sc., as the Head of the Institute for Quality Assurance and Educational Development (LPMPP), explained in an interview that the achievements of the five study programs are all due to the good preparation and experience of Unhas in preparing those study programs for international accreditation.

Actually, there were 18 study programs involved in the ASIIN accreditation assessment process. However, only five of them were given the assessment results.

Each study program involved in ASIIN accreditation has met curriculum standards and has a good track record, such as obtaining an accreditation issued by BAN-PT or LAM-PTKs.

“All study programs proposed in the visitation process have met the standards, one of which is that the curriculum applied is directed to the outcome-based education,” Dr. Prastawa explained.

Successfully obtaining this achievement is part of a harmonious and synergistic collaboration between the university team and study programs in preparing the Self-Assessment Report (SAR)

document.

Sharing knowledge between team members is very effective which was conducted through FGDs at the early stage of the preparation to share opinions regarding the SAR preparation guidelines.

Dr. Prastawa hopes that the five study programs that have succeeded in gaining international accreditation can maintain and improve the quality of education services. It is also necessary to expand global networks, one of which is by opening international classes or double degree programs with other university partners.

Dr. Prastawa said that LPMPP has regularly and in-depth prepared training for lecturers to assist in the process of planning, implementing, and evaluating classroom learning. Quality lecturers certainly have an impact on quality outcomes as well.

“Being able to fulfill the ASIIN criteria means that the study program is considered to have met ASIIN and ESG standards or the European Standard Guideline, which further means the learning process applied has been in accordance with the quality standards of European universities. Thus, there is a great opportunity to establish partnerships with various European universities,” added Dr. Prastawa.

ASIIN is an international accrediting agency originating from Germany for the disciplines of engineering, mathematics, science, agriculture, and biology. ASIIN international accreditation is an Outcome-Based Accreditation.

## FACULTY OF NURSING UNIVERSITAS HASANUDDIN HOLDS GUEST LECTURE, PRESENTING SPEAKERS FROM MANCHESTER

Dr Tony Long, BSc (hons), MA, PhD, SRN, RSCN, RNT, FRCR  
Professor of Child & Family Health

Tony works with colleagues to develop novel means of engagement and research with children and young people, especially with a mobile research laboratory. Tony's research is in improving quality of life outcomes for children, young people, and their families.

He works with NHS consultants in fields such as childhood brain tumour, neonatal care, sudden unexpected death in childhood, and emergency medicine, as well as supporting research in young people's mental health. He reviews research grant applications for 21 national funding bodies; has acquired £2.5 million in 43 externally-funded research grants; supervised 21 doctoral students to completion; examined 39 doctoral studies; and published 134 books, chapters, peer-reviewed articles, and research reports.

The Faculty of Nursing (FKep) of Universitas Hasanuddin held a 'Visiting Lecture Series' program inviting guest lecturers from the University of Salford, Manchester, England. The activity took place at 16.00 WITA virtually through the zoom meeting application on Friday (22/04). The Visiting Lecture Series is an effort by the Faculty of Nursing Unhas to reach out to the World Class University.

Unhas opens opportunities for each faculty and study program to increase the number of inbound students and inbound lecturers, as well as to enlarge the number of international partnerships with foreign universities in the field of education and research.

The guest lecturers presented in this visiting lecturer series are listed as follows:

1. Tony Long, Professor of Child & Family, delivering a lecture on Improving outcomes rather than settling for process in research: Being brutally honest with ourselves about what counts as an outcome for children's care
2. Alison Brettell, Professor in Health Information and Evidence-Based Practice; and Director Centre for Social and Health Research. He lectured on the topic of Using digital to help patients manage their own health: potential impacts and challenges.

The Vice Dean for Academics, Research and Innovation, Syahrul Said, S.Kep., Ns., M.Kes., PhD., expressed his appreciation to the Nursing Faculty for holding the event. He hopes that it can encourage more collaborations in the future.

"This is a very great opportunity to share knowledge and experiences that will be very beneficial for the participants.

The materials that will be presented later must become a new insight and be very useful for the development of Health Sciences at FKep Unhas," Syahrul said. In his presentation, Prof. Tony Long reminded all researchers, especially those concerned on child and family health, to really acknowledge the direct impact of research that will be carried out in the future.

"The research funding is quite large and the fact showed that many kinds of research previously conducted on this topic were not based on the needs of families and communities," Prof Tony explained.

Meanwhile, Prof. Alison Brettell through the material presented explained that digitalization has entered the health sector; however, it does not mean that digitized services can fully replace the existing health services. "However, the research emerging digitalization is expected to be able to strengthen the provision of primary health services and help facilitate the understanding of patients and families in order to obtain the currently available services," Prof. Alison said.

The public lecture was attended by roughly 250 participants from lecturers, students, health practitioners, nurses, physiotherapists, and various national health institutions. Also, lecturers, students, and clinical supervisors from the University of Salford, Manchester was present at the lecture.

The event guided by Andi Fajrin Permana, S.Kep., Ns., MSc., as moderator ran well until 17.30 WITA.

## UNHAS CONDUCT SOCIALIZATION OF INTERNATIONAL COLLABORATIVE RESEARCH FUND RISPRO-UKICIS

Universitas Hasanuddin through the Directorate of Research, Innovation and Partnerships held a socialization of the International Collaborative Research Fund RISPRO UKICIS. The activity took place starting at 10.00 Wita online through the Zoom meeting application, Tuesday (12/04).

The main speakers were Dr. Berry Juliandi, S.Si., M.Sc., (Head of the Expert Panel and RISPRO-UKICIS Technical Team), Prof. Dr. Ir. Jamaluddin Jompa, M.Sc., (Dean of the Unhas Postgraduate School).

The activity was officially opened by Prof. dr. Moh. Nasrum Massi, Ph.D., Sp.MK., as the Vice Chancellor for Research, Innovation and Partnerships. Prof. Nasrum explained that the socialization was aimed at providing information to Unhas researchers regarding the RISPRO-UKICIS international collaborative research fund scheme. It is hoped that Unhas researchers can be more active in building collaborations and publications by utilizing this research fund.

"This year, the target is approximately 2,500 articles that must be submitted to reputable journals. Meanwhile, Unhas' internal funding is limited. With this socialization, we hope that many Unhas researchers can get grants and foster collaboration to produce quality of research proposals that have an impact on academic reputation," explained Prof. Nasrum.

After the official opening, it was continued with the presentation of the material from two speakers. The initial material was explained by Dr. Berry related to "Innovative, Productive Research Funding Program with the UK Themed Mandatory - Indonesia Consortium for Interdisciplinary Sciences". He explained that

RISPRO-UKICIS is a funding scheme for Indonesian researchers who want to conduct research collaborations with the best universities in the UK.

Researchers received funding of IDR 44 billion (USD 3 million) which was used to strengthen national research in five fields namely Green Economy, Blue Economy, Digital Technology, Health, and Tourism for four years. RISPRO UKICIS can be accessed by universities in Indonesia, whether affiliated with UKICIS or not.

"This funding scheme is expected to produce scientific articles with international reputation indexed by Scopus with Schimago journal rank Q1. There are also relevant products in relation to research.

The presence of RISPRO UKICIS as a form of government commitment can support the intensification of research collaboration," explained Dr. Berries.

Other materials were also presented by Prof. Jamaluddin Jompa, who generally explained the collaborative research that was carried out. He views RISPRO UKICIS as a way to build partnerships with various universities.

Activities guided by Dr. Irmawati, S.Pi., M.Sc., (Unhas FIKP Lecturer) as moderator was attended by approximately 100 participants, dominated by Unhas researchers. The event went smoothly until 12.00 WITA.

# ACTIVE PARTNERSHIP as of December 2021

**64 %**

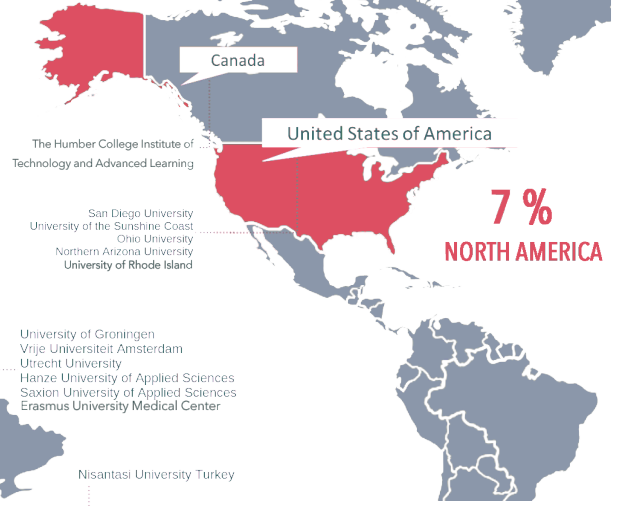

**ASIA & MIDDLE EAST**

**21 %**  
**EUROPE**

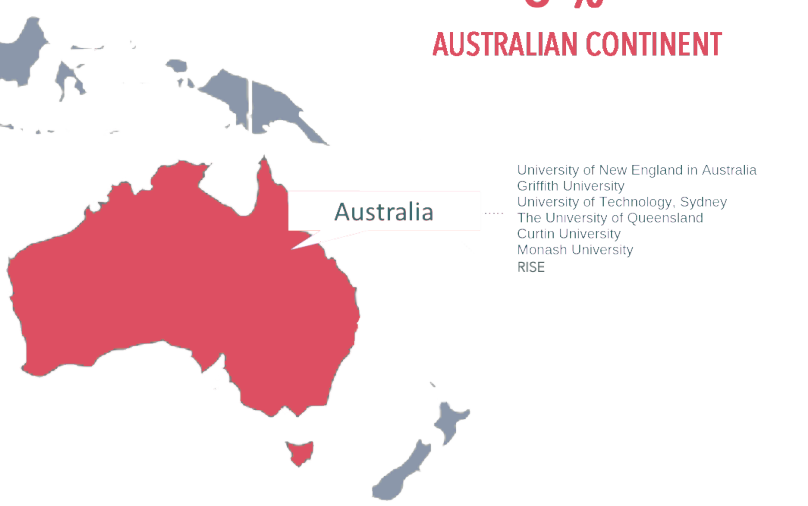

**7 %**  
**NORTH AMERICA**

**8 %**

**AUSTRALIAN CONTINENT**

Universitas Hasanuddin currently has 85 active international partnerships comprising of Universities and Research Institutes, spread among the 4 continents.

We strive to give the best quality of education, as we continuously engage to establish cooperation through the exchanges of students, staff, academics, as well as conduct joint research and conferences.

## FACULTY & STUDY PROGRAM

Universitas Hasanuddin consists of 15 Faculties covering wide varieties of majors in natural sciences, social sciences, engineering and many others.

- Faculty of Agriculture
- Faculty of Social & Political Sciences
- Faculty of Cultural Sciences
- Faculty of Mathematics & Natural Sciences
- Faculty of Economics & Business
- Faculty of Medicine
- Faculty of Law
- Faculty of Pharmacy
- Faculty of Dentistry
- Faculty of Forestry
- Faculty of Engineering
- Faculty of Animal Husbandry
- Faculty of Marine Sciences & Fisheries
- Faculty of Public Health
- Faculty of Nursing

Postgraduate Program at Unhas offers doctoral & master programs in wide range of majors including Health Sciences, Natural Science, Engineering and many others. Faculty of Postgraduate consists of 50 master study programs and 17 doctoral programs. The following lists are the master study program available at Unhas:

- Agricultural system
- Regional Planning and Development
- Environment management
- Resources economics
- Linguistics

- Economics Dev & Planning
- Dev. Administration
- Legal Science
- Agribusiness
- Chemistry
- Indonesian Language
- Urban Management
- Communication
- Bio Medic Science
- Sociology
- Financial Management
- Public Health
- Anthropology
- Gender and Development
- Master of Management
- Mechanical Engineering
- Civil Engineering
- Medical Specialist
- Pharmacy
- Master of Regional Finance
- Electrical Engineering
- Infrastructure Planning
- Transportation
- Agrotechnology
- Rural Planning & Dev.
- Agroindustry
- Geophysics
- Geology
- Marine Science
- Architecture
- Fisheries Science
- Accounting
- Mathematics

- Notary Affairs
- Forestry Science
- Food Science &Tech
- Agricultural Engineering
- Livestock Tech. & Science
- Plant PEST & Disease
- Nursing Science
- Political Science
- Midwifery
- Physics
- Biology
- English Language

The following lists are the doctorals available at Unhas :

- Agricultural Science
- Medical Science
- Linguistics
- Legal Science
- Economics
- Chemistry
- Civil Engineering
- Public Administration
- Public Health
- Anthropology
- Fisheries Science
- Architecture
- Mechanical Engineering
- Environmental & Geology
- Electrical Engineering
- Communication Science
- Pharmacy
