HASANUDDIN UNIVERSITY WELCOMES THE VISIT OF THE UNITED STATES CONSUL GENERAL SURABAYA INDONESIA

Hasanuddin University (UNHAS) welcomed the visit of the United States of America (USA) Consul General Surabaya, Indonesia on Wednesday, July 24, 2024 at Rector Meeting Room, 8th Floor of Rectorate Building. Prof. Dr. Ir. Jamaluddin Jompa, M.Sc (Rector) accompanied by Prof. Dr. Phil. Sukri, M.Si (dean of Faculty of Social and Political Sciences), Muhammad Ridwan, M.A. (International Office Secretary), Dr. Eng Zulkifli Tahir, S.T., M.Sc (Head of Sub-Directorate of International Partnership) and Dra. Harniaty Hamid (Head of Foreign Relation Division) welcomed the Consul General delegation including Christopher R. Green (US Consul general) was accompanied by John McDaniel (Political and Economic Chief), Kezia Saudale (Political and Economic Assistant) and Arieshadela Irwantini (Press and Media Coordinator).

Prof. Jamaluddin Jompa well known as Prof. JJ explained a number of issues to the Consul including how UNHAS has been in cooperation with several higher education institutions namely the University of Rhode Islands, Northern Illinois University. He also described UNHAS participation in the National Association of Foreign Students Advisers (NAFSA) Conference in Washington Dc in 2023. NAFSA is the association of international educators in which Prof. JJ conducted a series of meetings with potential partners in making UNHAS more globally recognized.

Meanwhile, the Consul explained his visit in UNHAS, Makassar as he is still new in the position and wishes to reach out to US Consulate General Office partners existing in the eastern part of Indonesia. He described several parties working on the developing education in Indonesia including United States Agency for International Development (USAID) and education USA (edUSA). This moment, Muhammad Ridwan (International Office Secretary) with the permission of Prof. JJ added the Consul explanation that UNHAS International Office (IO) has been working with edUSA. The adviser of edUSA comes to the IO every second Thursday of ongoing month to give the Thursday Pop-up Advising for UNHAS academic community.

The visit ended with token exchange. Both parties presented a unique thing. UNHAS in particular presented chocolate produced by UNHAS Teaching Industry and the Consul staff was truly impressed and asked to take the chocolate with her. Prof. JJ and the Consul also exchanged the contact number for further communication in a very casual setting. The Consul warmly welcomed the offer from Prof. JJ and the visit ended.

FOUR INTERNATIONAL CLASS STUDENTS OF THE FACULTY OF DENTISTRY TAKE PART IN THE 2024 ENRICHMENT PROGRAM AT OKAYAMA UNIVERSITY, JAPAN

Four International Class Students of the Faculty of Dentistry (FKG), Hasanuddin University (UNHAS) took part in the 2024 Enrichment Program at Okayama University, Japan. The FKG UNHAS International Class again sent four students to the Dental School of Okayama University, Japan, as in the previous year. This activity was an international exposure from the international class of FKG UNHAS. This activity would be held from July 8 – 26, 2024. On July 9, the students received orientation (Shikata Campus Tour) from the Dental School of Okayama University by Dr. Kuwahara and Dr. Matsugishi.

They welcomed the students and introduced all the infrastructure on the Okayama University campus so that students could adapt quickly. Dr. Kuwahara said that students should enjoy the program while at Okayama and be able to mingle with other students. Drg. Acing Habibie Mude, Ph.D, Sp. Pros, Subsp. OGST(K) as Vice Dean for Academic and Student Affairs expressed his thanks to the Dental School of Okayama University, especially to Dr. Yukinori Maruo who helped a lot in organizing the program. The four students had received a schedule before leaving for Japan, so they had a lot of preparation.

Drg. Acing added that their activities while on campus were very varied, ranging from attending lectures, doing practical learning, visiting laboratories, even visiting clinics. During lectures they were in the same class as Japanese students. Apart from that, what is hoped from this activity is that students will be exposed to interprofessional education which prioritizes the principle of collaboration in patient service.

Drg. Andi Sri Permatasari, Sp.KGA as the international class manager said that apart from activities on campus, international class students will also carry out social service activities in the form of counseling to the local Indonesian Student Association (PPI). This activity will be assisted by Drg. Namirah Kamaruddin, M.KM, one of the FKG UNHAS lecturers who is continuing her PhD program studies at Okayama University.

The four students who joined the Enrichment Program at the Dental School of Okayama University are Adinda Aulia Larasati, Ailsa Nahdah Leilani Tiara, Andi Aura Butsainah. P and Nur Suffa Syahbania. At the end, Drg. Acing conveyed to the students that this opportunity was an extraordinary opportunity to study directly at the Dental School of Okayama University and that this activity was indeed an advantage of the FKG Unhas international class.

THE FACULTY OF LAW, HASANUDDIN UNIVERSITY WELCOMES INBOUND STUDENTS FROM UNIVERSITI KEBANGSAAN MALAYSIA

Faculty of Law (FH), Hasanuddin University (UNHAS) welcomed the arrival of Inbound Program participants from Universiti Kebangsaan Malaysia on Monday, July 22, 2024 at 19.00 WITA. The Faculty of Law (Faculty of Law) at Universiti Kebangsaan Malaysia (UKM) has a good ranking in the QS World University Rankings, namely 138th.

The evening activity was held at the Swiss-belhotel, Jalan Ujung Pandang No.8, Makassar. This evening's activity was facilitated by the collaboration partner of the Faculty of Law, UNHAS, the Indonesian Advocates Association Officium Nobile (AAI ON) DPC Makassar, by Dr. Metsie Kandau, SH., MH. Dean of the Faculty of Law, Hasanuddin University, Prof. Dr. Hamzah Halim, SH MH MAP welcomed the arrival of 8 Inbound Program students.

Several agendas will be part of this program during 22-27 July 2024. Such as classroom learning activities, visiting various historical places in South Sulawesi, student exchange experiences, visits to legal professional offices, and lecturers sessions. The activity will open on July 23 2024 at Hasanuddin University. The International Office (IO) itself provided an introductory session for Hasanuddin University (UNHAS) and an exploration of the IO programs activities. This session was presented directly by Andi Masyitha Irwan, Ph.D (Head of IO).

In the welcoming activity, represented by the Deputy Dean for Academic and Student Affairs, Prof. Dr. Maskun, SH LLM., welcomed the arrival of 8 Inbound Program students. This activity is an implementation of the Key Performance Indicators. Also present were Vice Dean for Partnership, Research and Innovation Mrs. Ratnawati SH MH, Secretary of the Procedural Law Department Mr. Andi Muhammad Aswin Anas SH MH, Secretary of the Civil Law Department Mrs. Amaliyah SH MH, International Class Manager Mrs. Mutiah Wendah SH LLM and the Committee Team.

THE INTERNATIONAL OFFICE PARTICIPATES IN ANNUAL SUMMER PROGRAM ON CORAL REEF ECOLOGY AND REEF SURVEY TECHNIQUE HOSTED BY THE FACULTY OF MARINE SCIENCES AND FISHERIES

The International Office (IO), Hasanuddin University (UNHAS) participated in the Annual Summer on Coral Reef Ecology and Reef Survey Techniques hosted by the Faculty of Marine Sciences and Fisheries (FIKP) UNHAS and Operation Wallacea (OpWal). The IO participated on July 25 - 27, 2024 at Hoga Island of Southeast Sulawesi. The IO was represented by Khaeruddin, Ph.D (IO Task Force). Joining the event also from FIKP lecturers including Inayah Yasir, Ph.D and Yuyu La Nafie, Ph.D. The presence of the IO staff was to introduce UNHAS overview and IO program exploration to the participants of this summer program.

This summer program was designed more full of fun and adventurous as well as challenging. The participants took a diving class conducted by OpWal and the two lecturers of FIKP conducted snorkeling for seagrass observations. In addition, the adventurous parts of the event were mobiling from one island to another. The participants had to cross the ocean to reach another island by riding a small boat. At the same time this could be the challenging part as well as they had to be on a small boat in the shaking waves. The event absolutely drove the participants to more understand the Wallacea as well UNHAS and International Office.

THE FACULTY OF MARINE SCIENCES AND FISHERIES, HASANUDDIN UNIVERSITY RESEARCHERS JOIN GLOBAL EXPEDITION ON OCEANXPLORER

An extraordinary collaboration between the National Research and Innovation Agency (BRIN) of Indonesia, the Coordinating Ministry for Maritime Affairs and Investment (Kemenkomarves), and the renowned research vessel from the United States, OceanXplorer, was conducted from May to July 2024. This activity involved two lecturers from the Faculty of Marine Science and Fisheries (FIKP) of Hasanuddin University, in a research expedition aimed at exploring the Indian Ocean. The research team consisted of members from various countries, creating a collaborative environment rich in knowledge and expertise.

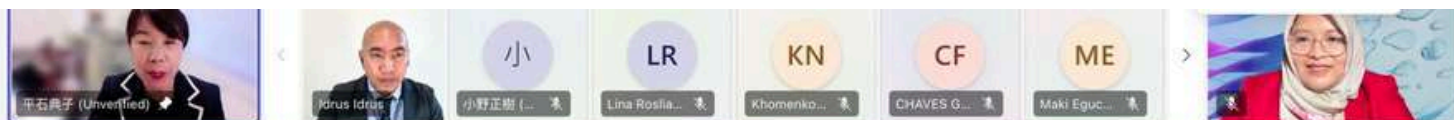

Dr. Widyastuti Umar and Prof. Nita Rukminasari participated in the expedition by joining different legs aboard the OceanXplorer. Dr. Widyastuti Umar joined Leg 2, which sailed from Aceh to Padang for a full month. Meanwhile, Prof. Nita Rukminasari contributed during Leg 3, a two-week expedition from Padang to Jakarta. Their primary research focus was on environmental DNA (eDNA) to investigate biodiversity from the surface to depths of over 5000 meters in the Indian Ocean waters.

During the expedition, water samples were analyzed using the Next Generation Sequencing Method – Oxford Nanopore Technologies, with equipment available onboard. The research findings provide crucial information for understanding the complex ecosystems thriving in the Indian Ocean. The collaboration between Indonesian and international researchers ensures a comprehensive approach to marine biodiversity research, promising valuable insights into previously unexplored marine areas.

The research results will be compiled and published in reputable scientific journals, marking Indonesia's significant contribution to global marine science. This effort demonstrates Indonesia's, particularly Hasanuddin University, commitment to advancing marine research and conservation efforts by leveraging cutting-edge technology and international partnerships for the benefit of global marine ecosystems.

THE FACULTY OF CULTURAL SCIENCES, HASANUDDIN UNIVERSITY LECTURER PARTICIPATES IN DOCTORAL EXAMINATION ON JAPANESE COMIC ONOMATOPOEIA

Fithyani Anwar, S.S., M.A., Ph.D, - a lecturer at Japanese Department, Faculty of Cultural Sciences (FIB), Hasanuddin University (UNHAS) – was invited to become an examiner in an open examination of a doctorate dissertation at the University of Tsukuba, Japan on Tuesday, July 23, 2024. The dissertation is entitled “Onomatopoeia in Japanese Comics: a Translation from Japanese Language to Bahasa Indonesia” (マンガにおけるオノマトペー日本語からインドネシア語への翻訳をめぐって). It is written by Idrus, S.S., M.Hum., an Indonesian student at the University of Tsukuba, Japan and a lecturer at Andalas University, Indonesia. The online dissertation examination was attended by 3 lecturers from Japan: Prof. Hiraishi Noriko, Prof. Ono Masaki, and Eguchi Maki, Ph.D. They are teachers in the Program of International Doctor and Advanced Japanese Studies at the University of Tsukuba. Fithyani Anwar is an alumni of a doctorate program in the same university.

Research on Japanese comics, especially those related to onomatopoeia and its history, have not been conducted frequently in Indonesia. The Japanese language has been known for its richness of onomatopoeia and this can be clearly identified in the works of Japanese comics creators. The occurrence of onomatopoeia in Japanese comics is unique. Furthermore, the nuances of the story are easier to be understood by the readers. On the other hand, Bahasa Indonesia does not have as many onomatopoeia as the Japanese language. Therefore, it is very interesting to study the translation strategies used by Indonesian translators, especially by referring to language and cultural backgrounds.

Activity in foreign universities like this is very important in increasing the key performance indicators (KPI) of a university, especially KPI number 3 regarding the number of lecturers involved in teaching, research, and community service programs abroad. Lecturers of UNHAS can initiate the same activity, or other activities like joint-research and joint-teaching in cooperation with colleagues from outside Indonesia. This can improve the KPI of Universitas Hasanuddin in the future.

The screenshot shows a Zoom meeting in progress. The main window displays a presentation slide with the following text:

筑波大学博士（国際日本研究）学位請求論文
最終審査発表
マンガにおけるオノマトペ
—日本語からインドネシア語への翻訳をめぐる—

The meeting interface includes a top toolbar with icons for People (4), Raise, React, View, More, Camera, Mic, Share, and Leave. A bottom toolbar shows controls for Take control, Pop out, Chat, People, Raise, React, View, Apps, More, Camera, Mic, Share, and Leave. A gallery view at the bottom shows thumbnails for participants: 平石典子, Idrus Idrus, 小野正樹, Fithyani Anwar (External), and LR. A Participants list on the right side of the screen shows the following members:

- LR Lina Rosliana
- CF CHAVES GONCALVES PINTO F...
- FA Fithyani Anwar (External)
- II Idrus Idrus
- KN Khomenko Nataliaia
- ME Maki Eguchi
- WY WEN YUJIA
- 堀 堀 直美
- 小 小野正樹
- 平石典子 Organizer

There are also suggestions for participants: 風見 詩歩 and Mic Manansala. A red box with the number 13 is visible in the bottom right corner of the slide area.

FACULTY OF NURSING, HASANUDDIN UNIVERSITY STUDENTS ENGAGE IN GLOBAL EXCHANGE AT KANAZAWA UNIVERSITY

Two professional nursing students from the Faculty of Nursing (FKep), Hasanuddin University (UNHAS), successfully participated in the Global Basic and Clinical Practice Exchange Program at Kanazawa University, Japan, from July 14-29, 2024. This program also included students from Taipei Medical University, Taiwan. The purpose of the exchange was to study the Japanese medical system, hospitals, community nursing practices, and culture, and compare them with the health systems in Indonesia and Taiwan.

The program began with an introductory meeting with Japanese students, followed by visits to several notable sites in Kanazawa City, including the 21st Century Museum of Contemporary Art, Oyama Jinja Shrine, and Omicho Market. A welcoming party was also held to greet the visiting students. During the exchange, the students observed various departments at Kanazawa University Hospital, including the psychiatric ward, dialysis and chemotherapy ward, ICU, perioperative room, maternal ward, cardiovascular ward, and pediatric ward. They also visited Saiseikai Kanazawa Hospital, where they explored the convalescent rehabilitation ward, Ishikawa Prefectural Rehabilitation Center, and a simulation of a barrier-free house for the elderly and disabled. Additionally, they visited a store that sells welfare tools and equipment.

The students also engaged with community nursing for cancer patients at Genchan House, a certified NPO Corporation, and the gathering house "Haneume," supported by the Ishikawa Government. Genchan House offers a place where cancer patients, their families, and friends can consult, relax, and participate in various positive activities. Haneume includes Kurumi Cafe, a space where medical professionals and parents collaborate to support children with cancer. The cafe hosts numerous programs, such as board games for children, leaflet creation about social resources for parents, Christmas events, and International Childhood Cancer Light Up Day. Through this program, the students hope that their observations and experiences will broaden their perspectives and contribute to improving the quality of the Indonesian health system in the future.
